

Covid-19 protective measures

Strict cleanliness and hygiene regulations have not only been our daily routine since Corona. In these challenging times, we have revised and strengthened them in order to implement an even more comprehensive hygiene strategy - because with us only our friendliness should be contagious!

All guests traveling to Switzerland from abroad can find a lot of useful information on the following link <https://swissplf.admin.ch/formular>

From January 22, 2022, vaccinated and those who have recovered will not need a negative test to enter Switzerland. The entry form only needs to be filled out by people entering Switzerland by plane or long-distance bus.

Access limitation and distance control

The access to Hotel Bellevue-Terminus and Restaurant Yucatan is limited to vaccinated and recovered people (from 16 years).

We will be happy to check the validity of the Covid certificate at check-in.

Mask requirement

There is a general mask requirement. Food & drinks may only be consumed while sitting.

Disposable masks can be provided free of charge at our front office.

Hand hygiene

Disinfectant dispensers are available at all entrance areas, the elevators and the public toilets. Disinfection in public areas Covid-19 has raised awareness of the cleanliness of surfaces with intensive contact. In public areas, the already strict cleaning protocols have been supplemented, which stipulate that surfaces are treated more frequently and thoroughly with disinfectants, as they are also used in hospitals.

Perfect cleanliness and hygiene in the room

The already strict cleaning guidelines have been added to the rooms. Among other things, the cleaning staff change all cleaning rags after each room and clean & disinfect all surfaces in the room with virucidal agents. Bed linen and towels are washed with a disinfecting detergent. The guest rooms are only cleaned and thoroughly ventilated during the stay in the absence of the guests. Please give us a sign with the room card on the door by 4 p.m. at the latest.

We also offer the "do not enter my room" service. Please hang the corresponding page of the room card on your door. If you would like a new set of bath towels, please let the reception know, we will hang them on your room door.

Requirements for restaurants

The access to Restaurant Yucatan and LivingRoom by BT is restricted to vaccinated and recovered people (from 16 years). There is a general mask requirement. Food and drinks may only be consumed while sitting.

The staff checks the Covid certificates at the entrance or at the table, at the latest when the service staff comes into contact with the guests.

Outside, access is also possible without a Covid certificate. The winter garden at Restaurant Yucatan is NOT considered an outdoor area. When using the indoor toilet facilities or picking up take-away orders, you must comply with the mask and clearance requirement.

People who do not adhere to the obligation to wear a mask (where required) despite instructions and admonitions are to be expelled.

Requirements for seminars and events

Access to all seminars and events is restricted to vaccinated and recovered people.

The organizer is obliged to carry out the inspection.

Each participant is responsible for checking the validity of his certificate. Not all certificates (vaccinations) are recognized in Switzerland.

If the certificate expires during the event, the participant must renew the certificate.

The following doctors in Engelberg can carry out COVID-19 rapid tests or PCR tests (appointments can be made directly):

Dr. med. Rausch | Titlis-Praxis AG (right next to the hotel)

Poststrasse 3/041 637 33 33

Dr. med. Christoph Ehrat

Klosterhof 1/041 637 40 60

Dr. med. Hansjörg Bucher

Titlis Center 5/041 637 00 30

There are two Covid test centers in Engelberg:

Station Titlis Bergbahnen (near Chalet) 8 a.m. – 12 p.m

Community Hall (voting room) 2 p.m. – 8 p.m

Registration [here](#) and also as a walk-in.

On request, we organize events for vaccinated and recovered people with an additional negative Covid test. In this constellation measures such as a mask requirement in the seminar room, seating requirements for consumption and the recording of contact details are no longer applicable.

Furthermore, all rooms are thoroughly disinfected and ventilated. Disinfectant is also available in the room.

Our entire team is regularly trained by their team leaders and informed about news and measures. Protection concepts have been worked out for all departments in accordance with the requirements of the national health department.

Stay safe - stay with us!
